FONDOVALLE

Creating ceramics is like making music, because these activities share the same creative and technical process, using both digital tools and ideas and knowledge and exploring a universe of genres classified on criteria of formal and stylistic affinity. Harmonies of tones and shades, running across surfaces like melodies, are at the heart of the new Ceramica Fondovalle collections, skilfully developed by combining substrates, material effects and the compositional balance of colours and finishes to achieve spatiality and depth, creating products rich in resonances and life.

Creare ceramica è come fare musica, perché queste attività condividono entrambe il medesimo processo creativo e tecnico che sfrutta strumentazioni digitali ma anche idee e conoscenze, indagando un universo di generi classificati secondo criteri di affinità formali e stilistiche. Armonie di toni, sfumature come melodie che attraversano le superfici, animano le nuove collezioni di Ceramica Fondovalle, frutto di un sapiente lavoro che unisce la scelta dei supporti, gli effetti materici, l'equilibrio compositivo di colori e finiture, per raggiungere spazialità e profondità, dando vita a prodotti ricchi di sonorità e di vita.

Créer de la céramique, c'est comme jouer de la musique, car ces deux activités ont en commun le même processus créatif et technique : il s'appuie à la fois sur des outils numériques, des idées et des connaissances pour explorer un univers de genres classés selon des critères d'affinités formelles et stylistiques. Ces harmonies de tons, ces nuances qui, telles des mélodies, parcourent les surfaces, animent les nouvelles collections de Ceramica Fondovalle. C'est là le fruit d'un savant travail, qui allie choix des supports, effets de matière, équilibre de composition des couleurs et des finitions : ainsi naissent des produits riches de sonorité et de vie.

Keramik machen ist wie Musik machen. Denn beide Tätigkeiten beruhen auf dem gleichen kreativen und technischen Prozess, der sich bei der Erkundung eines ganzen Universums von Genres, klassifiziert nach formalen und stilistischen Gemeinsamkeiten, auf digitale Instrumente, Ideen und Kenntnisse stützt. Stimmungen und Farben durchweben die neuen Kollektionen von Ceramica Fondovalle und fügen sich zu einer einzigartigen Harmonie, die der Könnerschaft bei der Auswahl der Trägermaterialien, der Gestaltung der Materialoptiken und der gelungenen Komposition von Farben und Oberflächen entspringt und Produkte hervorbringt, die die gesamte Klaviatur von Andante bis Allegro beherrschen.

**REAL
MATT**
TECHNOLOGY

A well-judged combination of looks and performance

Five shades in natural, light-filled colours are offered on two types of surfaces.

The Vein plain tiles, characterised by the look of stone cut parallel to the veining, have broad vein patterns that give the coverings a tactile, elegant striped effect, in the large 120x278 cm size in 6 mm thickness finished with the 3D Texture technology and in 60x120 cm with thickness 8.5 mm. **The look of cutting across the vein characterises the Cross plain tiles,** with a tasteful texture rich in shade variations and detail: they complete the range with floor tiles in size 120x120 cm, thickness 6 mm and in 60x120 cm and 80x80 cm with thickness 8.5 mm.

Coniugare tecnica ed estetica con calibrata armonia

Cinque tonalità dai colori naturali e pieni di luce sono declinate su due tipologie di superficie.

La particolare tipologia di taglio della pietra 'al verso' caratterizza i fondi Vein con ampie venature che regalano ai rivestimenti un effetto rigato materico ed elegante, nel grande formato 120x278 cm di spessore 6 mm a cui viene applicata la tecnologia 3D texture e nel formato 60x120 cm di spessore 8,5 mm. **Il taglio 'al contro' della pietra caratterizza invece i fondi Cross** con una texture armonica, ricca di sfumature e particolari che completano l'offerta a pavimento nel formato 120x120 cm, spessore 6 mm, 60x120 cm e 80x80 cm con spessore 8,5 mm.

Allier la technique et l'esthétique à une harmonie calibrée

Cinq nuances naturelles et lumineuses sont déclinées sur deux types de surface.

La découpe particulière de la pierre « de veine », dans la direction des veines, caractérise les fonds Vein sur le grand format 120x278 cm épaisseur 6 mm auquel est appliquée la technologie 3D Texture. Sur le format 60x120 cm, épaisseur 8,5 mm, de larges veines confèrent aux revêtements muraux un effet de matière strié et élégant.

La coupe « croisée », dans la direction contraire des veines, caractérise les fonds Cross, à la texture harmonieuse, riche de nuances et de détails. Ils complètent l'offre sols aux formats 120x120 cm, épaisseur 6 mm, 60x120 cm et 80x80 cm, épaisseur 8,5 mm.

Technik und Ästhetik in Harmonie vereint

Fünf natürliche, helle Farbstellungen sind in zwei Oberflächenvarianten. **Der besondere Materialbild des Venenschnitts (Vein Cut) kennzeichnet die mit großzügigen Äderungen versehenen Grundfliesen Vein,** die den Belagsflächen eine elegante Bänderung verleihen. Sie sind im 6 mm starken Großformat 120x278 cm mit der Technologie 3D Texture und im 8,5 mm starken Format 60x120 cm verfügbar.

Der Kreuzschnitt (Cross Cut) hingegen prägt die Steinoptik der Grundfliesen Cross mit einer wolkigen nuancen- und detailreichen Textur, die die Palette für Bodenbeläge im Format 120x120 cm in der Materialstärke 6 mm sowie 60x120 cm und 80x80 cm in der Materialstärke 8,5 mm abrundet.

Splendidly bright and infinitely precious

The large assortment of the Infinito 2.0 collection now also includes the new Onyx slabs in 5 colours, in 120x278 cm size. The Crystal technology enriches **surfaces with a special shine and transparency, generated by a precious mix of tiny particles of crystals and pearly pigments**, refracting the light in an infinity of constantly changing ways. The patterning textures acquire vastly greater brightness and depth. This technology gives surfaces iridescence that changes with the light, generating an effect of exquisite splendour.

Preziosità infinita di brillante splendore

La collezione Infinito 2.0 integra la sua ampia gamma con le nuove lastre Onyx in 5 colori nel formato 120x278 cm. La tecnologia Crystal arricchisce le **superfici di una particolare trasparenza e luminosità, generata da una miscela preziosa di minuscole particelle di cristalli e pigmenti perlescenti** che crea infinite e mutevoli rifrazioni luminose. Le texture grafiche appaiono visibilmente più brillanti e acquisiscono profondità. Grazie a questa tecnologia le superfici presentano mutevoli effetti cangianti che variano in base alla luce, generando un effetto di prezioso splendore.

Raffinement infini à l'éclatante splendeur

La collection Infinito 2.0 élargit sa vaste gamme avec les nouvelles dalles Onyx déclinées en 5 couleurs au format 120x278 cm. La technologie Crystal enrichit les **surfaces d'une transparence et d'une luminosité particulières, que génère un mélange précieux de minuscules particules de cristal et de pigments nacrés**, créant des réfractions lumineuses infinies et changeantes. Apparaissent visiblement plus brillantes, les textures graphiques gagnent en profondeur. Grâce à cette technologie, les surfaces présentent des effets irisés changeants, qui varient en fonction de la lumière et créent un effet de précieuse splendeur.

Die unendliche Kostbarkeit strahlenden Glanzes

Die umfassende Palette der Kollektion Infinito 2.0 wird durch die neuen Platten Onyx in fünf Farben im Format 120x278 cm erweitert. Die Crystal-Technologie verleiht **Oberflächen eine besondere Transparenz und Ausstrahlungskraft, die auf der kostbaren Mixtur feinsten Kristallpartikel und perlmuttfarbenen schimmernder Pigmente beruhen**, die einen facettenreichen Glanz erzeugen. Die grafischen Texturen treten leuchtend hervor und erhalten mehr Tiefe. Dank dieser Technologie changiert die Oberfläche je nach Einfallswinkel des Lichts in einem prachtvoll glänzenden Farbspiel.

Matt and shiny textures of great beauty

A selection of articles from the Infinito 2.0 collection is enriched with the new 60x120 cm tile in 6 mm thickness. A versatile size for floor and wall coverings, easy to install and with reduced environmental impact in both residential and commercial projects. The Matt finish has an opaque texture with a tactile 'feel' and anti-slip properties, while the Lux finish offers surfaces with a glossy effect and eye-catching highlights, with exactly the same durability.

Texture opache e brillanti di grande bellezza

Una selezione di articoli della collezione Infinito 2.0 si arricchisce con il nuovo formato 60x120 cm in spessore 6 mm. Un formato versatile per pavimenti e rivestimenti, pratico da posare, che riduce l'impatto ambientale in progetti residenziali e commerciali. La finitura Matt regala una texture opaca dal tocco materico e con proprietà antiscivolo, mentre la finitura Lux caratterizza le superfici con un effetto lucido dai suggestivi riflessi che non altera le caratteristiche di resistenza.

Textures mates et brillantes de toute beauté

Une sélection dans les articles de la collection Infinito 2.0 s'enrichit du nouveau format 60x120 cm en épaisseur 6 mm. Un format polyvalent pour les sols et les revêtements muraux, facile à poser en réduisant l'impact environnemental dans les projets résidentiels et commerciaux. La finition Matt offre une texture mate, antidérapante, avec une touche de matière, tandis que la finition Lux apporte aux surfaces un effet brillant aux beaux reflets, qui n'altère pas ses propriétés de résistance.

Matte und glänzende Texturen von großer Schönheit

Eine Auswahl von Artikeln aus der Infinito 2.0-Kollektion wird mit dem neuen Format 60x120 cm in 6 mm Dicke erweitert. Ein vielseitiges Format für Böden und Wandverkleidungen, das einfach zu verlegen ist und die Umweltbelastung bei Wohn- und Gewerbeprojekten reduziert. Die Oberfläche Matt weist eine matte Textur mit materialbetonter Haptik und rutschhemmenden Eigenschaften auf. Die Oberfläche Lux besticht, ohne Einbußen in puncto Resistenz, durch ein glänzendes Erscheinungsbild mit reizvollen Reflexen.

Sophisticated decorations are enriched with golden gleams perceptible to the touch

Luminescent material applications with a rich, tactile thickness accentuate the depth of variegated decorations, transforming ceramic surfaces into refined textures with glints of gold. Thanks to the Precious technology, Palm decorations acquire a deep reflectance, with colors and textures becoming more vivid and bright. The raised golden effects elegantly enhance every detail.

Sofisticate decorazioni si arricchiscono di bagliori dorati percepibili al tatto

Applicazioni materiche luminescenti, ricche di matericità e spessore, accentuano la profondità di decorazioni variegata, trasformando le superfici ceramiche in texture raffinate dai riflessi dorati. Grazie alla tecnologia Precious, le decorazioni Palm acquistano una profonda riflettenza, i colori e le texture risultano più vividi e brillanti, gli effetti dorati a rilievo esaltano con eleganza ogni dettaglio.

Des décorations sophistiquées sont rehaussées de leurs dorées perceptibles au toucher

Offrant matérialité et épaisseur, des applications de matière luminescentes accentuent la profondeur des décors bigarrés et transforment les surfaces céramiques en textures raffinées aux reflets dorés. Grâce à la technologie Precious, les décors Palm acquièrent une profonde réflectivité, les couleurs et les textures sont plus vives et brillantes, les effets de relief dorés mettent élégamment en valeur chaque détail.

Ein taktil wirkender Goldschimmer bereichert erlesene Dekorationen

Glänzende, haptisch betonte Materialapplikationen verstärken die Tiefenoptik abwechslungsreicher Dekorationen und verwandeln keramische Oberflächen in erlesene Texturen mit goldenem Schimmer. Dank der Precious-Technologie warten die Dekorationen Palm mit einem tiefgründigen Glanz auf, wirken die Farben und Texturen leuchtender und lebendiger und betonen die erhabenen goldfarbenen Stellen elegant jedes einzelne Detail.
